Comments: To Whom It May Concern,

I am writing to express my strong support for the proposed expansion of singletrack trails within the Sherwin Area Trail Network (SHARP). As a resident of Mammoth Lakes for over 20 years and a daily user of this trail system during the summer months, I've seen firsthand how valuable it is to both the local community and visiting recreationists.

The current offering of free trails open to mountain biking is limited. Expanding the singletrack network would help meet growing demand and enhance the overall experience for trail users. As an avid mountain biker, I can attest that additional trails will not only disperse use and reduce congestion but also increase opportunities for sustainable, human-powered recreation.

The Sherwin Area Trail Network is unique for its accessibility and continues to be a key asset for promoting outdoor activity, health, and tourism in the region. I respectfully urge you to move forward with the proposed expansion, which I believe will have lasting positive impacts on our community and public land use.

Thank you for your consideration.

Sincerely,

Kevin Smith
