Comments: I am very concerned about adding additional parking spaces to the Miners Creek Trailhead. Yes, it is a popular area but adding additional parking as proposed will destroy numerous trees and flowers that are part of the special beauty of that entry to the trailhead. And it will cause increased traffic and noise and litter to the Bills Ranch and Ophir Mtn Townhomes which it borders. And I'm suspecting that some will find it a place to party into the night causing more concerns. I hope you would consider adding the additional parking spaces to the east end of the Medical Office Building which I have never seen filled to capacity. And it will not increase traffic, noise, or destroy nature in a residential are.

Thank you for your consideration in this matter.
