Comments: Dear US Forest Service,

I want to thank you for pursuing the proposed Herbert Glacier Cabin. I full heartedly support this project. A cabin on the Herbert trail will create a good destination point and provide a good staging spot for exploring and pursuing other outdoor recreation activities.

I live in Juneau Alaska, and I have been regularly using the Herbert Glacier area since 2006. The Herbert Glacier area is one of Juneau's best outdoor recreational areas. I run or cc-ski the Herbert trail on a very regular basis, as it is one of the few longer and flatter trails that is good for CC-skiing. I also use the user developed trail from Grandchild peaks down to the Herbert trail, use the trail to packraft the Herbert River, and I use the Herbert Trail to access the glacier to get up onto the icefield. I have also used the Herbert trail as a camp spot/base camp to summit Ernest Gruening and rock/ice climb. If there is a cabin there, I will certainly use it!

Not long ago, you could easily get a cabin a week or two before you wanted to go. Now they booked out months in advance. Similarly, the trails are busier and more people are up in the alpine skiing, hiking, packrafting, etc. It is time to build more recreation infrastructure in this community and this cabin is a definite WIN!

Thanks again for making this project happen and I look forward to using the cabin.

Sincerely, Rob Cadmus, 809 B St, Juneau AK 99801
