Comments: I support the Herbert Glacier cabin project. USFS public use cabins in the Juneau area are a great asset to our community and beyond. The cabins helped me get my kids into the wilderness and taught them to love the outdoors and outdoor adventure - especially as a solo parent they made it possible. The existing cabins are so popular it's difficult to reserve the ones accessible to the Juneau road system - I am confident there would be heavy use of a cabin at Herbert. It's a great trail and a beautiful area to explore. Thank you!
