Comments: Dear Forest Service Office dealing with the request to elarge the Grand Targhee Masterplan 2018 document and request to enlarge the current facility and Forest Service Lease.

I want to share my opinion as someone who regularly visits and the Caribou - Targhee National Forest. While I have no issues with it's current location and facility, I strongly oppose expanding the facility. I also stongly support the Alternative 3 Win-Win proposal in the DEIS that allows upgrading existing facilities, improving and adding new trails etc.

Thank you for considering my comments.

Best regards,
