Comments: Hello, I am contacting you in regards to my oposition of Rochford Mineral Exploratory Drilling Project. I ask that you please have the earth, land, kin, relatives, and future generations in mind. This drilling project would be detrimental to the health of the land, to the people close in proximity but also far and wide. This is also a sacred site that has been home and a place of worship for thousands of years for the people who have taken care of this land. I urge you to block this drilling project and let those who know how to care for the land best, take care of these sacred sights from money hungry corporations who do not care for the health of the land and of the people. We know now in this day and age the critical affects this has on our planet. Let's take care of our planet and take care of each other. I trust that those in charge will make the right decisions to protect this land from drilling and explotation
