Comments: As someone who has visited the Black Hills of South Dakota I instantly fell in love with the area. As I have learned about the Lakota people and their rich history in the Black Hills I do not comprehend how a project like this should even be considered in such a historical, sacred, and beautiful place. I sincerely hope that the next time I visit the Black Hills that this project and any like it are off the table. Thank you for the opportunity to voice my opinion on this matter.
