Comments: I am writing to oppose the Rochford Mineral Exploratory Drilling Project. This project is on Lakota treaty lands and would be a blatant violation of treaty rights. The area known as Pe'Sla is a sacred site that Lakota people return to regularly. Not only does this mining project have no right to work in this area, they also are vying to desecrate a holy site. The Rochford project is a deeply disrespectful and ignorant proposal that would forever desecrate tribal treaty lands. This project must be denied, they have no right to work on Pe'Sla.

Amelio
