Comments: The Native and Indigenous tribes of this country have been pushed aside with their homelands taken, their ancestors murdered, and their people now sick with addiction, diabetes and other diseases due to all the trauma that has been caused to their tribes. ENOUGH IS ENOUGH! Please stop TAKING and instead, GIVE BACK TO CHANGE this horrific and traumatic divisiveness of this country! Please! We need the brave to take a stand for humanity...stand for what is right and just vs what is done for money and greed. Thank you.
