First name: Steven

Last name: Hauff

Organization:

Title:

Comments: It is time to stand up against the consequences of business greed motivated demands! The value of minerals will always be there, now and forever. The natural beauty of the Black Hills is a heritage place that cannot be duplicated, ever! Please develop the awareness and fortitude to use your short time in your current position to stand for a cause larger than just money. I hope you can experience the personal growth from knowing that you chose the generational positive bigger picture.

Thank you for this,

Steve
