Comments: I am writing to implore that the Rochford Mineral Exploratory Drilling Project be stopped until a full environmental impact study can be done

Concerning this project. The Black Hills are a pristine nature preserve and

Habitat that is held Sacred by all Native American Tribes and all

South Dakota residents. Our Water, Air, Land, and all Living things

need to be protected and preserved for the generations that come

after us. Please, do what is right. Insist on a thorough and complete environmental impact study to be certain that our areas drinking water

will not be affected by this or any other drilling projects in this

area, or any other area of the Black Hills of South Dakota. Pilamaya
