Comments: There is no reason that another scared site should be destroyed in our current reality. We all know the negative effects that rape and extraction of our Mother Earth will bring. She cannot take much more. The health of our planet is more valuable than any amount of money or so called "progress" that will come from these dirty fossil fuel ran projects. Stop. Take a seat. Reconnect with our planet. Find new hobbies. Shame on anyone who supports this desecration of land and direct desecration of Indigenous ways.
