Comments: As a 30 year homeowner directly beside Shadow Mountain my family and I have seen the evolution of Shadow Mountain on a yearly basis.

A beautiful and peaceful place has now turned into an overcrowded habitat with crowded campsites and ATVs on the original roads. Sadly, it has been totally commercialized.

On a daily basis ,from late Spring throughout the summer and Fall, trailer loads of ATVs are unleashed on Shadow to run the pothole,boulder strewn entry and exit roads.Sometimes resulting in fatalities such as happened last summer with an inexperienced family of 4 and the loss of their 16 year old daughter.

I'm not sure the Forest Service wants to assume the liability and true costs of permitting these practices to continue.
