Last name: WWILKIE

Organization:

Title:

Comments: Displacement and Loss of Land, I request that you oppose any mining in He Sapa disrupting their way of life and cultural practices.

Destruction of Sacred Sites, further mining can damage or destroy places of cultural and spiritual significance, causing emotional distress and social disruption that has gone on for far too long.

Increased Violence and Social Problems, there are only a small number of individuals involved in this proposed project but enough to have unknown men associated with mining projects have been linked to increased rates of violence, particularly against Indigenous women.
