First name: Kelly

Last name: Baraby

Organization:

Title:

Comments: The Forest Service needs to provide a full environmental assessment, rather than shielding the permit applicants from the public comment process with a categorical exclusion. The public must know the potential cumulative effects of the 20-year operations, and "The Bob" deserves more than the perfunctory process of a categorical exclusion.

Please follow due process, we all preserve the right to know.

Thank You Kelly Baraby
