Comments: I'm writing today to say that Lien & Sons' drilling project at Pe' Sla ("pay-SHLAH") is shameful and wrong and must be stopped!

The company should withdraw the project immediately and apologize to the many tribes who hold that area sacred, and this is a blatant attack on Indigenous culture, sovereignty, and religious freedom!

You should never have considered violating such a holy place, and by doing so you are choosing to be an enemy of Indigenous rights. The People will not stand for it. Withdraw the Pe' Sla project now.

Thanks for your time.
