Comments: I am unalterably opposed the approval of Pete Lien and Sons Rochford Mineral Exploratory Drilling Project #67838. I am opposed because it will destroy Pe Sla, a site that is sacred to Lakota, Dakota and other tribes that are part of the Sioux Nation. Historically our country has stolen their land and massacred them. This project represents an assault on lands that are sacred to them and approval of it shows total disrespect for their spiritual practices. Proceeding with this project is racist and disrespectful. Please put a stop to this project now before irreparable damage is done.
