Comments: I'm writing today to say that Lien & Sons' drilling project at Pe' Sla is shameful and wrong. The company should withdraw the project immediately and apologize to the many tribes who hold that area sacred. This is a blatant attack on Indigenous culture, sovereignty, and religious freedom. You should never have considered violating such a holy place, and by doing so you are choosing to be an enemy of Indigenous rights.

Haven't we, as a people, taken enough from all our indigenous people and their lands? NOW is the time to pave a new path to the future. No more destruction and greed. WE'VE HAD ENOUGH.

Withdraw the Pe' Sla project now. Thanks for your time.
