Comments: The Lien & Sons' drilling project at Pe' Sla ("pay-SHLAH") is shameful and wrong. The company should withdraw the project immediately and apologize to the many tribes who hold that area sacred. This is a blatant attack on Indigenous culture, sovereignty, and religious freedom. The company should never have considered violating such a holy place, and by doing so they are choosing to be an enemy of Indigenous rights.

Such violations of native lands is unacceptable. This project should be immediately canceled and abandoned. It is a desecration.
