First name: Shari

Last name: Ducheneaux

Organization:

Title:

Comments: My name is Shari Ducheneaux (member of the Cheyenne River Sioux Tribe) and I am a life long resident of South Dakota. My family and I have cultural ties to the Black Hills and often travel there to enjoy nature. The Rochford Mineral Exploratory Drilling Project does not need to be approved as the impacts will be negative for the environment. It is time we start prioritizing all the earth gives us and not the potential money to be made off our resources. I oppose the RMEDP and any project like it within the sacred Black Hills.
