Comments: Since European arrival and the removal of the Original people of this land we have taken so much of their heritage and culture away and placed them in solitude away from their homeland. This is a form of geocide. We need to respect them and not take any more from them. I have very little Native blood in my veins but alot of love for it in my heart. Do not continue to drill where their scared areas are there are so few left. Havent we done enough?
