Comments: Please stop Pete Lien & Sons from drilling at Rochford! I visit this beautiful area yearly, and my heart aches to think what devastation drilling will have on the natural beauty and ecological value this area has. It will be so detrimental environmentally, and create so much ugliness! In addition, it is wrong to force this on the people who live in that area, and to be so disrespectful to a sacred site of the Lakota people. We've done enough to them - listen to their voices and don't harm them and what they value further by this greedy drilling!
