Comments: I think the proposed location for the Herbert River cabin should not be in plain sight of the active mining projects that are underway in this area. This akin to putting a casino and nightclubs in between a church and grade school; it would cause unnecessary strife and diminish the experience that folks seek when they rent out a cabin in our wilderness areas in Juneau.

I urge you to use common sense before spending our tax payer dollars to construct this cabin at this site and to move it across the river to where the public and future generations will have good access and to be able to enjoy it in solitude.

Thank you
