Comments: I'm against the Rochford Mineral Exploratory Drilling Project mining in the Black Hills. Not only is this area sacred to the Lakota people, but it's a great area for recreation and beauty in our national lands. I want to still be able to visit this place with my grandchildren one day and have it not be ruined by mining runoff.

I request a 60-day extension of the "scoping" public comment period, so everyone has an opportunity to comment. That way all voices can be heard.

And I would like for the Forest Service to do an Environmental Impact Statement (EIS) for this project, so we know the true impact on this beautiful environment before we progress.
