First name: Wade

Last name: medicine

Organization: Black Hills Clean Water Alliance

Title: bored member

Comments: i would like to say Pete lien has been around for a long time and they "say" they care about the people and family first, drilling for graphite is doing the opposite of what they are doing. Doing this not only hurts the black hills, it hurts the people of the native and non/native who enjoy the black hills for ceremonial use and recreation use. Doing this is racism not only do they don't care about native people the don't care about white people also. I'm not going to stand around and be told and lie to about what's good for the people while they destroy a beautiful place that's been here for years
