Title:

Comments: I as a voting in texting citizen do not consent to the BLM using parts of the Mount Hood national Forest. I have worked at multiple ski hills, recreated in the forest, wrapped through the waters. I know how important the native wildlife is and how small of an area is already being preserved. I do not consent to the BLM carving away more of these precious public lands. Soon there will not be enough room for all of us and the animals to commingle. Please stop the governments unending growth and put in permanent protections
