Comments: I strongly oppose this proposed mining exploration project. Pe' Sla is sacred land to multiple Native American tribes (Lakota, Dakota, and other Sioux Tribes). This project amounts to desecration of holy ground, making this proposal an attack on indigenous sovereignty, culture and rights.

While I would like to see this proposal immediately withdrawn and have the entire issue resolved right now today, in the interest of following procedure I want to see a 60-day extension of the public comment period and, of course, an Environmental Impact Statement (EIS).

Thank you in advance for your time and attention and, hopefully, your recognition of the ill-considered nature of this wrong-headed proposal.
