Comments: Hello, as someone who grew up in the Swan Valley and actually lived at Holland Lake lodge for a brief amount of time, I do not want to see any changes to this beautiful place. I come back every year to enjoy the solitude and peacefulness of this piece of heaven and I couldn't imagine what impact this will have here. I currently live in a place that continues to grow and expand due to housing and I see what the destruction it does to the beauty and it will be no different here. Please restore the lodge and prevent and new developments to take place.
