Comments: I'm writing about the Rochford Mineral Exploratory Drilling Project, which should at the very least have a 60-day extension of the "scoping" public comment period, and an EIS from the Forest Service.

Personally, I'm opposed to the Rochford Mineral Exploratory Drilling Project. This project would continue a long line of disregard for the peoples who have stewarded the land for generations, as well as negatively affect the land itself - poisoning the local water supply for all people.
