Title:

Comments: I am appalled at the Rochford Mineral Exploratory Drilling project on the sacred lands of Native Americans. Does your insatiable greed and thirst for short-term profits truly have no limits? Are you not deeply disturbed that your children and grandchildren to be unable to live on this planet because you have destroyed it with your greed? Do you not know that other religions besides Christianity have sacred sites and do you not know that the Constitution declares all religions equal? Have you no shame? Most true humans would be able to answer yes to all of these questions -- I hope that those involved in the approval of this project will have the decency to be able to answer yes to at least one. Our government is a democracy of the people, not a servant of extractive capitalism and short term profits. DO YOUR JOB -- PROTECT OUR LANDS!
