Comments: Out of respect for the people of the Great Sioux Nation (Oceti Sakowin), I am writing in opposition to the proposed Rochford Mineral Exploratory Drilling Project (RMEDP). This project will cause damage to Pe' Sla, a site sacred to Oceti Sakowin, and represents a dangerous violation of Tribal treaty rights. Pe' Sla is an ancient holy site where Lakotas and other peoples still return for ceremonies at specific times throughout the year. The unique qualities of Pe' Sla make it a sacred place for many Tribes.
