First name: Amy
Last name: Abeyta
Organization:
Title:
Comments: Please do not allow the administration to destroy these precious lands with their thoughtless logging proposal. This will destroy some of the most beautiful and ecologically diverse lands in the Northeast and the country. This plan if implemented will be devastating to wildlife, plant life and all that supports the wonders of nature.
This is a clear display of greed and cruelty.

Sincerely,
Amy Abeyta
Randolph Center, VT
