Title:

Comments: Please protect the Black Hills and sacred lands of the Lakota!

I request a 60-day extension of the "scoping" public comment period for the Rochford Mineral Exploratory Drilling Project #67838 so everyone has a chance to comment, along with requiring an Environmental Impact Statement.

I oppose mining and extractive processes in the Black Hills. It is long past time we stop trading short-term gain for long-term natural environments. The Black Hills are and have been sacred to the Lakota since time immemorial, and the Earth is suffering enough already from resource extraction, pollution, and the destruction of natural habitats.

Protect the Black Hills for future generations of Americans and all Lakota people.
