Comments: I'm writing about Rochford Mineral Exploratory Drilling Project #67838. The Black Hills are an important cultural site and a critical ecosystem. I request a 60-day extension of the "scoping" public comment period. I oppose the project for many reasons, but want to call out that there will invariably be negative environmental impacts as well as disruptions of traditional ceremonial practices for Lakota peoples. An Environmental Impact Statement (EIS) for this project should 100% exist.
