Comments: Re: Rochford Mineral Exploratory Drilling Project #67838

- 1) I support a 60-day extension of the "scoping" public comment period. This project will have a permanent impact on the area and ample time should be allowed for stakeholders to comment.
- 2) I stridently oppose the Rochford Mineral Exploratory Drilling Project. Aside from negative environmental impacts, the project will disrupt traditional ceremonial practices for Lakotas.
- 3) The Forest Service should require an Environmental Impact Statement (EIS) for this project, which would have profound impacts on the region.
