Title:

Comments: I want to register my strong objection to the Rochford Mineral Exploratory Drilling Project #67838).

This is sacred land to the native peoples who live there and to desecrate that land would be a horror of the worst sort. Can you imagine what would happen if someone decided to drill in Arlington National Cemetery (I used to live next door to that wonderful place).

Well, that is what is now proposed by this dreadful proposal.

I do not have native American heritage, my ancestors came to this country in 1832. But I have always felt very strongly that the native peoples should have been respected and that their sacred places should now be protected.

Thank you,
Robert Lyle
