Comments: Hello, my name is Juanita, from Oregon, I oppose the Rochford Mineral Exploratory Drilling Project. The main two reasons for my opposition lie with disruption of the natural environment and wildlife, and the interference with Native American traditional ceremonial practices that occur on this land.

At the very least an Environmental Impact study should be done, prior to any drilling or exploratory core removal.

I also request a 60-day extension of the "scoping" public comment period, so all parties concerned have time to make a statement about this project moving forward.

Thank you for your consideration in this crucial matter.

Best Wishes,  
Juanita Rinas
