Comments: To Whom It May Concern:

I fully support the Lakota people having their sacred land, Pe' Sla, protected from any mining, other extractive efforts, and any environmental damage. Native people in the United States have had too many treaties broken, agreements not honored, and their sacred lands and practices disrespected and mistreated.

Please collaborate with the Lakota people to arrive at a decision that respects and honors their rights and responsibilities as caretakers of their sacred lands.

Sincerely,

David Sprague
