Comments: RE: Rochford Mineral Exploratory Drilling Project #67838

Because, frankly, I'm pissed off at our government's long history of neglect, corruption, duplicity, profound disrespect, and dishonesty in dealing with indigenous peoples rights and traditions; I must insist that the negative impacts of this potential invasion of tribal sacred lands (Lakota) be suspended pending the required development of an Environmental Impact Statement (EIS), and with further consultation with tribal leaders. Further; I request a 60-day extension of the "scoping" public comment period, in order to ensure that all interested parties have had sufficient opportunity to provide input.

Environmentally unsound and destructive build-out of fossil fuel infrastructure must stop before we bring ruin to the entire planet! We MUST respect First Peoples rights as stewards of what pathetically little land left them!

Respectfully,
