Comments: I care deeply about the Black Hills because of their cultural, spiritual, and environmental significance. I'm writing to express concern about the Rochford Mineral Exploratory Drilling Project (#67838) and to request a 60-day extension of the public scoping comment period so that all voices can be heard. I oppose this project due to its potential for serious environmental harm and its disruption of traditional Lakota ceremonial practices. I urge the Forest Service to require a full Environmental Impact Statement (EIS) before moving forward.
