Comments: Please no mining. Pe'Sla is and has been a sacred site for thousands of years. Indigenous peoples' freedom of religion must be honored, however different from Christianity. They are the caretakers and treat this land with love and respect.

You can, too. No mining. No harm to Pe'Sla.

Thank you. You will be blessed when you make the decision that is right- for the land, for the longterm future for the Indigenous people for us all.

Thank you.
