Comments: Pe' Sla is one of the most sacred places - located high in the Black Hills - to the Lakota People. I request a 60-day extension of the "scoping" public comment period, so everyone has an opportunity to comment. Many of us are just leaning of the potential for greed to overcome environmental concern. I urge the Forest Service to require an Environmental Impact Statement (EIS) for this project. I feel shame that my undocumented grandmother, who was born in Sweden, homestead on indigenous land early in the 20th century somewhere in the North Dakota area. My home is on Tongva land in California. As a Euro American I want to protect as much land as possible from further exploitation.
