Comments: Everywhere at City Councils and other government meetings, at the beginning is the Land acknowledgment, giving respect to the Native peoples of that particular land.

I send a Land Acknowledgment to you now, that you will listen and respect the tribe's request to leave this sacred land for all the inhabitants of the air the water and the land.

Spirit is telling you to retreat and give up any plans to mine this area.

Your souls will find peace when you do this.

May it be so! 3x3
