Title:

Comments: I'm am in opposition to the Rochford Mineral Exploratory Drilling Project #67838. We cannot live without clean water. Please prioritize that. Also, these lands were inhabited by a native people long before settlers came and manipulated the environment. We should learn to live more harmoniously with our Mother Earth for without her good health we will have nothing.

I would like to request a 60-day extension of the "scoping" public comment period, so everyone has an opportunity to comment. I also think the Forest Service should be require to conduct and submit an Environmental Impact Statement (EIS) for this project.
