Title:

Comments: We must protest the Rochford Mineral Exploratory Drilling Project #67838.

Our sacred grounds are immediately adjacent to--and some proposed drill pads might encroach on--Pe' Sla.

Black Hills Clean Water Alliance research indicates the project means possibly 18 drill pads and consequent exploration could contaminate and/or cross-contaminate both streams and underground water sources.

There is only one earth, one chance: this project threatens negative environmental impacts and the disruption of Indigenous ceremonial practices.

Please require an Environmental Impact Statement within the time remaining before Drilling. Thanks.
