Title:

Comments: I request a 60-day extension of the "scoping" public comment period, so everyone has an opportunity to comment (Rochford Mineral Exploratory Drilling Project #67838) due to its potential negative environmental impacts and the disruption of traditional ceremonial practices for Lakotas.

The Forest Service should require an Environmental Impact Statement (EIS) for this project.

I urgently request you protect this sacred territory frequently used by many Lakota People for ceremonial practice. It is a pristine ecosystem and beautiful place. Please protect Pe' Sla.
