First name: Nina

Last name: Dure&#39;n

Organization:

Title:

Comments: No drilling project on sacred land. It's a danger to the water supplies, a danger to nature, to animals. What's an economic income is a disaster to future generations. The new green movement is greenwashing and must be stopped or there will be consequences in the long run. The tribe's sovereignty must be upheld. No decisions made without tribes voices to speak for their situation. Sincerely Nina Dure'n
