Title:

Comments: Protect sacred lands of America's native people by stopping the Rochford Mineral Exploratory Drilling Project #67838). As a child in the 1970s, my visits to the region with Lakota people taught me the importance of keeping the land sacred for all generations. From prayer to meditation to life skills learned in these territories protects the legacy of native ways and its natural resources.

I request a 60-day extension of the "scoping" public comment period, so everyone has an opportunity to comment.

I ask the Forest Service to require an Environmental Impact Statement (EIS) for this project before moving forward.
