Comments: This area is treaty land that is inviolate and not even a part of the United States. Rochford Mineral Exploratory Drilling Project #67838) has no right to do any drilling whatsoever.

There should be a 60-day extension of the "scoping" public comment period, so everyone has an opportunity to comment

Apart from the fact that this is ancient Lakota land I oppose the Rochford Mineral Exploratory Drilling Project because of the potential negative environmental impacts and the disruption of traditional ceremonial practices for Lakotas who have perpetual control of what takes place in their territory.

The Forest Service must require an Environmental Impact Statement (EIS) for this project and then of course this project goes no further as it is a travesty of the treaty signed over 130 years ago.
