First name: Kim Marie

Last name: Fudge

Organization:

Title:

Comments: I live in the White Mountains and my home is surrounded by the National Forest.

Those of us who have chosen to live here have done so in order to access the wilderness. We are hikers and walkers who appreciate the quiet beauty of our surroundings.

We have also been witness to the destructive practices of logging in the Sandwich Range as well as the Moat Mountains.

Logging costs us environmentally as well as financially. The Forest Service loses money with this practice.

Leave Lost River alone!
